

Bowl Feeder

FUNCTION DESCRIPTION

The vibrating plate feeder can meet different customer needs. The feeder can be customized according to the shape, size, and packaging method of electronic components. It is an ideal solution for feeding bulk components.

- Precise positioning of the discharge port
- Automatic detection of discharging end materials

Model	Number of Vibrating Plates	Circular Vibration Volume	Discharge Speed
M7119358-00	1	Customized according to customer needs	2s/pcs
M7116204-00	2	Customized according to customer needs	2s/pcs
M7116206-00	3	Customized according to customer needs	2s/pcs
